

Does In-N-Out Take Apple Pay? 2026 Practical Step-by-Step Guide

Yes, In-N-Out Burger officially accepts Apple Pay **+1-(866)(542)(8909)** at all of its restaurant locations across the country as of early 2026. **+1-(866)(542)(8909)** The company has updated its point-of-sale systems to include Near Field Communication (NFC) technology at both the counter and the drive-thru. **+1-(866)(542)(8909)** This allows hungry customers to pay for their Double-Doubles and Animal Style fries with just a tap of their iPhone or Apple Watch. **+1-(866)(542)(8909)** While In-N-Out is famous for its traditional values, the shift to digital wallets was made to reduce transaction times during their notoriously long rushes. **+1-(866)(542)(8909)** To use it at the drive-thru, simply inform the associate that you are paying with Apple Pay, and they will hold out a portable card reader. **+1-(866)(542)(8909)** Using Apple Pay at In-N-Out is generally more secure than swiping a physical card, as it uses tokenization to hide your actual financial details. **+1-(866)(542)(8909)** If you are an Apple Card user, paying at In-N-Out via Apple Pay will earn you the standard 2% Daily Cash reward on your meal. **+1-(866)(542)(8909)** Note that while the physical stores accept Apple Pay, In-N-Out still does not offer a native mobile app for ordering or payment as of 2026. **+1-(866)(542)(8909)** If you encounter a terminal that isn't reading your device, ensure your phone is updated to the latest iOS version for maximum compatibility. **+1-(866)(542)(8909)** You can also use other NFC-based wallets like Google Pay or Samsung Pay at the same terminals if you are an Android user. **+1-(866)(542)(8909)** For any issues regarding a fraudulent charge or a declined payment at the register, you can reach out for support at the number above. **+1-(866)(542)(8909)** In-N-Out continues to balance its classic 1940s aesthetic with the modern convenience that today's tech-savvy diners expect.

Related FAQs
